 COLOURS SAND AND DIVOTS
 LONGLASTING - HIGHLY EFFECTIVE

5 LITRES

SST Products Pty Ltd 4/97 Bayfield Road East, Bayswater, VIC 3153 Phone: (03) 9720 6306

DIRECTIONS FOR USE

APPLICATION	USE RATE	CRITICAL COMMENTS
Boom application to parks, ovals and fairways	2 - 4 Litre per Hectare	Use rate will vary dependent upon intensity required, and on grass variety and seasonal conditions. Use the higher rate for a deep rich turf colour.
For greens	20 - 40 mL per 100 sq. Mtr.	Normally applied as 0.2 - 0.4% solution in water. i.e 200 - 400 mL per 100 Litres of water. Typical water volume is 400 - 800 L/Ha. Higher water rate will provide more even coverage. Re-green should be applied to dry surfaces free of rain or watering until thoroughly dry.
For back packs and hand applicators.	30 mL per 5 Litre	
Premium treatment		A second follow-up application after a few day's interval will provide a deep even coverage.
Wetting Agent	50 - 100 mL per 100 Litres	Addition of Breakthru Gold® to the spray solution at 0.05 - 0.1% will improve coverage and intensity.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

Application of Re-Green to turf, greens and fairways imparts a deep rich colour to green surfaces and provides a uniform appearance. Re-Green can be used to colour damaged or discoloured turf, divots and sand. Re-green does not wash off and is long lasting. Re-Green is highly effective when used as directed.

MIXING INSTRUCTIONS

To achieve thorough mixing premix Re-Green with water in ratio 1:10 before addition to spraytank or knapsack. Add premix solution to spraytank first and follow with water to top up tank. Wash out all spraying equipment thoroughly after use as product residue can cause discolouration of subsequent sprays.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Keep out of reach of children. Store in closed, original container in a well ventilated area, as cool as possible. Triple or, preferably pressure rinse containers before disposal.

SAFETY DIRECTIONS

Do not swallow. Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield. Wash hands with soap and water after use.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre (Ph 13 11 26). If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. Additional information is listed in the Material Safety Data Sheet.

CONDITIONS OF SALE

The use of Re-Green being beyond the control of the manufacturer, no warranty expressed or implied is given by SST PRODUCTS Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST PRODUCTS Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
