

READ SAFETY DIRECTIONS BEFORE OPENING OR USING

SUSPEND

**COUPLING AGENT AND WATER CONDITIONER FOR
AGRICULTURAL SPRAYS**

**TO MAINTAIN CERTAIN PESTICIDE / FERTILIZER MIXTURES
IN SUSPENSION**

20 LITRES

GENERAL INSTRUCTIONS

SUSPEND is a biodegradable organic compound for use as a water conditioner and compatibility agent for agricultural chemicals. SUSPEND assists with mixtures of many pesticides both together, and in combination with some liquid nutrients and fertilizers. Some trace elements can react and cause incompatibility with certain pesticides such as amines and weak acids. In many cases, use of SUSPEND can prevent or correct incompatibilities that occur. Regular use of SUSPEND in irrigation lines can prevent or reduce scale deposits and SUSPEND can condition hard or alkaline spray water to a mildly acidic pH. SUSPEND is suitable for use through fertigation or folia sprays.

Directions for use

To improve compatibility of fertilizer mixes, mix required macro nutrient (N.P.K.) and micro nutrient fertilizers as per label instructions. Always mix N.P.K fertilizer with water before adding micro nutrient fertilizer. If precipitation occurs add SUSPEND gradually in increments of 1L until solution returns to clear. **Under normal conditions a rate of 2L / 1000L of SUSPEND is required.** However this may vary depending on water hardness, variable dilution rates and variable application rates.

When adding pesticides – premix first. Ensure that fertilizer mixture is clear, then add pesticides.

Always test mixture first for crop safety before applying extensively.

To maintain drip lines and prevent scale build-up use 2 – 8L/1000 Ltr (0.2 – 0.8% solution) of SUSPEND.

To condition alkaline or hard water add 2 – 3L/1000Ltr (0.2 – 0.3% solution) of SUSPEND.

NOT TO BE USED FOR ANY PURPOSE OTHER THAN INDICATED ON THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND THE ENVIRONMENT

Do not contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Keep out of reach of children. Store in closed, original container in a well ventilated area, as cool as possible. Triple or preferably, pressure rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site. Break, crush, puncture and bury empty containers in a local authority landfill. If not available bury the containers below 500mm in a disposal pit specifically marked and set up for this purpose clear of vegetation and roots. Empty containers and product should not be burnt.

SAFETY DIRECTIONS

Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. If skin contact occurs remove contaminated clothing and wash skin thoroughly. If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. Additional information is listed on the Material Safety Data Sheet.

CONDITIONS OF SALE

The use of SUSPEND being beyond the control of the manufacturer, no warranty expressed or implied is given by SST Australia Pty Ltd regarding its suitability, or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and SST Australia Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.

In an Emergency Dial 000 Police or Fire Brigade.
