

Press Release

WETOUT® - New Generation Surfactant

July 6th, 2020

Every once in a while, a product comes along that immediately puts a gap between itself and other products in its category, and WETOUT® is just that.

When SST first showed Living Turf what this vegetable-based surfactant could do, we immediately thought of better turf mite control, improved coverage of colourants and pigments. Then, when we tested WETOUT® we were blown away by its versatility, compared to other non-ionic surfactants. WETOUT® really is the next generation of spray adjuvant (surfactant) and Living Turf are thrilled to represent it exclusively for the Australian Turf market.

In turf situations, spray droplet coverage and target plant contact are critical for product performance. WETOUT® has a unique formulation of vegetable-based surfactants that exceeds expectations, with versatility in performance that enhances many spray treatments for turf, including Miticides, Foliar fertilisers, Pigments and Growth regulators.

The benefits of WETOUT® include;

- ✓ Superior Spreading – Better coverage
- ✓ Better Deposition – More product on the target
- ✓ Less drift – Less loss and better compliance
- ✓ Improved herbicide performance – Less weeds
- ✓ Low user rates – Less handling and storage, very cost effective
- ✓ Environmentally friendly – Biodegradable

"We recently made the change to WETOUT® spray adjuvant as an additive to our green foliar apps and winter fairway pigment treatments and were blown away by the results. We witnessed a faster uptake of nutrient and obtained an extremely even colour from both green and fairway applications unlike any other before. Thankful we made the switch and supporting an Australian company"

Rob Green – New Brighton Golf Club

"I had not considered using an adjuvant with Foliar fertiliser previously. I understood the technology and was very pleased with the considerable improvement in coverage across the plant, minimal striping / shadows on fairways and greens. Thanks"

Peter Watts - Muirfield Golf Club

WETOUT® is a result of extensive research from developer SST, who have a proud history in developing surfactant products for the Australian market.

To purchase WETOUT® please contact your local Living Turf representative, or call 1300 556 116.
